

Supporting Teaching & Learning

Level 3 Diploma

This diploma follows on from the Level 2 Supporting Teaching and Learning. It gives the opportunity to develop advanced learning in range of skills and techniques, qualities and attitudes essential for supporting children and young people in schools.

The apprenticeship is work-based and online, so learners will not have to leave the workplace and can fit study around their day job.

There are a set of mandatory units and a selection of optional units to choose from, the optional units listed below are only a selection, there is a wide choice available. We'll help you put together the right combination to fit the job you're doing and the way you want to develop your career.
